Project Description

Description Frase (max. 500 characters):

All types of school collaborate all together , through Music,around the same topic.

Project Summary (max. 2000 characters):

The project idea and the aim had origin from the will of teachers of different grade of school to make work that unites all types of school (pre-primary, primary and low secondary school). As our Low Secondary School is a school music-oriented and our students are individually guided to learn to play 4 musical instruments, music will be the pivot of its various activities. Many teachers of our and of the partner schools are involved (Pietro Cantisani- Maria Rachele Cincia - Beatrice David_:ICS "Don Bosco" di Francavilla in Sinni - Plesso Secondaria di I

Kilkenny, Irlanda.)In its development some small melodies, inclusive of chord for the accompaniment , will be produced by the pupils. On these “shared notes” each partner will create rhymes, poems, games, sequences of words and numbers. The music , produced in digital format (midi or audio), may be also used as a background for animations of stories and tales.. Through all that, children are guided to achieve different abilities in various primary school subjects , the improvement of their taste and of their abilities in Music and to the functional usage of English Language and new technologies. The most innovative and creative elements of the project are the comparison with foreign pupils and teachers, the usage of ICT to communicate, as well as the usage of the twinspace .
