Project Description

Description Frase (max. 500 characters):

DIGITAL ALPHABET FOR EQUAL DIALOGUE IN MOTHER TONGUE BETWEEN THE ETHNIC GROUPS, RACES AND RELIGIONS FOR THE FUTURE OF HUMAN CIVILIZATION.

Project Summary (max. 2000 characters):

The project started as a private initiative in 1999. Communication in the mother tongue text to text is protected by patent 63 704 B1. Sound communication(voice to voice) is developed later in 2012. An analysis of the two solutions has shown that it is a scientific discovery.

Objectives and Innovative Aspects

The future of Europe and the world is linked to the possibilities of communication in the mother tongue. UNESCO warns, that half of the languages will disappear by the end of this century. <http://www.ibtimes.co.uk/unesco-half-worlds-languages-will-disappear-by-...> [1]

If you find a coordinator with a high reputation in the community, all ethnicities can digitize their language simultaneously in the same way to enter the system of communication in the mother tongue and connect digital codes of grammar, words and phrasal structures with one or more foreign languages.
