---

The **Make: Learn: Share: Europe (MLSE) project** is designed to develop digital skills amongst young people across Europe, in order to promote 21<sup>st</sup> century skills and entrepreneurship, through the **creation of a large scale student ambassador association who will run training for others in schools or local settings.**

This has been done by organising a series of training events and learning resources for young people, made openly available.

The subject areas of the training are: Coding, Mobile Phone Application (App) creation, 3D animation, Robotics, Digital Fabrication, Virtual Reality Development.

The consortium of participating cities is composed of:

- Riga, Latvia
- Gijon, Spain
- Ronneby, Sweden
- Rome, Italy and
- Sheffield, United Kingdom

The partners involved are:

- Municipality of Sheffield <sup>[1]</sup>, United Kingdom

- Municipality of Riga [2], Education, Culture and Sports Dept., Latvia
- Fondazione Mondo Digitale [3], Italy
- Municipality of Gijón [4], Spain
- Knut Hahn School [5], Sweden

Each regional consortium identified, trained and supported a selected number of **Digital Ambassadors**, who received trained by project partners. These young Ambassadors then trained their peers with the aim to develop a joint digital project work.

The project also features 3 international Working Conferences, where representatives of all counties ambassadors come together to share the competences acquired and present the project developed during the training programme
