Project Type

Helping youth step in the job market

Project Description

Description Frase (max. 500 characters):

It is provide through our website tools free access necessary for the society to use it for social inclusion of people in disability status, as well as labor and education to disadvantaged people opportunities, either with labor supply, using our tools as the translator sign language and braille transcriber

Project Summary (max. 2000 characters):

Through our website http://hetah.net [1] we focus on design and develop tools that society uses to make social inclusion of people with disabilities.

For deaf people which are about more than 70 million worldwide have no access because society know their native language, sign language , create a * FREE translation service French , English and Spanish language sign , this allows society to begin to appropriate this language beginning to acquire new vocabulary that allows providing inclusive opportunities for these people.

Additionally supply a Braille text transcriber in order to enable people to print without a braille printer, and automated read such content, without license expensive software licenses.

Additionally tools to save and improve the Quality of nutrition for people , so that they may be allowed to save and better nourished .

Finally all this is complemented in a job for people in disability status , single mothers , vulnerable and seniors .

EL site is currently running.

How long has your project been running?

2007-06-29 22:00:00

Objectives and Innovative Aspects

We want to create a vocabulary of 7000 signs for every country in the world, for that currently have 3046 Colombian signs and started scanning other countries.

We also want to bring our tools to other languages ??including Italian.

Results

Describe the results achieved by your project How do you measure (parameters) these. It is meas (max. 2000 characters): people w
We were disruptive
Currently

How many users interact with your project monthly and what are the preferred forms of interaction? (max. 500 characters): The tool I

Our webs

Sustainability

What is the full duration of your project (from beginning to end)?: Less than 1 year
What is the approximate total budget for your project (in Euro)?: Less than 10.000 Euro
What is the source of funding for your project?: Grants

Is your project economically self sufficient now?: No
Since when?: 2014-05-30 22:00:00
When is it expected to become self-sufficient?: 2014-12-30 23:00:00

Transferability

Has your project been replicated/adapted elsewhere?: Yes
Where? By whom?: In Brazil, Spain and Argentina has begun to develop a sign language translators
What lessons can others learn from your project? (max. 1500 characters):

Developing with passion
achieve results that ben
achieved important thing

Are you available to help others to start or work on similar projects?: Yes

Background Information

Barriers and Solutions (max. 1000 characters): The main barrier is getting the right people or compan
of this type
Future plans and wish list (max. 750 characters): Implement the online delivery of food and minutes,
