Descrizione del progetto

Description Frase (max. 500 characters):

Telemedicine in the developing world mirrors prevention activities to a large extent. The primary benefit of telemedicine lies in facilitating remote access to prevention and care (i.e. by increasing speed of access and/or reducing cost of access).

Project Summary (max. 2000 characters):

ePrevention Contents & quality service: Support to generate the bases for the establishment of strategic alliances between the public institutions and participant organizations of the civil

society with a view to the implementation of joint initiatives or to the collaboration in concrete actions in strategies for the prevention in the Andean Region doing use of the ICT. The adoption of measures would be due to encourage to facilitate the access to the Internet and to increase in general the knowledge of the ICT. Sufficient diversity to serve individuals and communities.

Da quando è funzionante il vostro progetto?
